

Health Program: Grants

Active Transportation works with communities to make bicycling, walking, and public transit attractive so that residents have environmentally and physically healthy alternatives to sedentary travel. Kresge's three-year, \$300,000 grant will support Active Living on the Block, a project to help low-income neighborhoods create a healthy, safe, and active built environment for recreation and physical activity.

Active Transportation Alliance

Chicago, Illinois
\$100,000

The Childhood Lead Poisoning Prevention Program has reduced lead hazards for Alameda County children through its remediation efforts, home evaluations, case management, and training in lead-safe construction practices. This two-year, \$225,000 grant will help the agency expand its advocacy work and increase certification training for lead-abatement efforts.

Alameda County Community Development Agency

(2008 grant)
Oakland, California
\$100,000

The center serves as the local safety-net hospital in the San Francisco Bay area, providing primary, emergency, and urgent care, as well as specialty surgical services for uninsured and underinsured patients. Challenge-grant funding will be used to purchase angiography equipment for the hospital's trauma center, facilitating the diagnosis and treatment of heart disease.

Alameda County Medical Center

Oakland, California
\$200,000

The nonprofit research and consulting organization focuses on health and health systems, including health-information systems and financing. This grant will support its collaborative work in the Michigan Center for Effective Information Technology Adoption, a statewide initiative to accelerate the adoption of electronic medical records and other health-information technologies and to procure federal assistance in driving the technological transition.

Altarum Institute

Ann Arbor, Michigan
\$1,000,000

The system serves more than 44,000 medically underserved patients through its six community health centers and four school-based clinics. This challenge grant will support the construction of the LEED-rated Highlandtown Healthy Living Center, which will spearhead efforts to address the root causes of health disparities and promote new prevention strategies among low-income people.

Baltimore Medical System Inc.

Baltimore, Maryland
\$380,000

Boston Medical Center Boston, Massachusetts \$350,000	The private, nonprofit academic medical center in Boston's historic South End is New England's largest safety-net hospital. Kresge's two-year, \$500,000 grant will enable the Medical Legal Partnership for Children program to expand and increase the sustainability of its National Center and affiliated programs, which utilize legal aid to augment primary care services to low-income children and their families.
Center for Health, Environment and Justice Falls Church, Virginia \$200,000	The advocacy organization seeks to build healthy communities characterized by social justice, economic well-being, and democratic governance. This two-year, \$400,000 grant will advance efforts to establish federal, state, and local guidelines and policies for schools aimed at ensuring healthy site selection, reducing nearby pollution, and improving indoor air quality.
Center for Science in the Public Interest Washington, D.C. \$83,000	The national health advocacy organization conducts research, educates the public, and campaigns for government policies and corporate practices that promote healthy diets and prevent deceptive marketing practices. Kresge support will allow the center to develop its next advocacy plan to promote policies that improve public health, especially through better nutrition and eating habits.
Children's Environmental Health Network (2008 grant) Washington, D.C. \$50,000	The nation's first and leading advocate for protecting children from environmental harm plays a key role in shaping both health research and policy. This three-year, \$150,000 grant will enable the network to accelerate development of an action plan to address children's vulnerabilities, reduce hazards, influence chemicals-policy reform, and advance protective action.
The Children's Health Fund New York, New York \$250,000	The fund's co-founders, Dr. Irwin Redlener and singer/song writer Paul Simon, established the South Bronx Health Center for Children and Families in 1993 to ensure continuity of care for homeless families relocating to South Bronx. Challenge-grant funding will assist in building a new clinic that will provide medical services to children and adolescents.
City of Newark, Department of Family and Child Well-Being (2008 grant) Newark, New Jersey \$764,000	The department is working to reduce the high incidence of childhood lead poisoning among low-income families with young children utilizing a multifaceted program designed to raise awareness through media strategies, expand prevention and outreach programming, and increase relocation and safe-housing resources for affected residents. This two-year, \$1,542,000 grant will support these efforts.
Clean Air Task Force (2008 grant) Boston, Massachusetts \$700,000	The task force is working on the local, state, and federal levels to clean up pollution from dirty diesel engines and to reduce the health hazard it poses for vulnerable low-income populations and people of color. This three-year, \$1,900,000 grant will increase staffing for field support and engagement at the federal level.
Communities for a Better Environment (2008 grant) Huntington Park, California \$250,000	Through grassroots activism, environmental research, and legal assistance, the environmental-justice organization helps minority residents in underserved, industrialized communities throughout California change policies and practices that threaten their health. This three-year, \$750,000 grant will support the 10-year Community Health and Clean Energy Campaign, which aims to reduce greenhouse gases, smog, and toxic emissions throughout the state.

Serving the seven-county region around Detroit, the Community Foundation assists donors, volunteers, and community members in identifying important issues, sharing ideas, and building financial resources to achieve positive long-term change. Kresge's growth-capital grant will go into the construction fund for a LEED-rated medical/office building for the Community Health & Social Services Center in southwest Detroit.
Started as a free clinic, the center now operates eight medical clinics, seven pharmacies, and two dental clinics serving more than 35,000 low-income, underinsured or uninsured patients. Challenge-grant funding will be used to build a new Community Health Care Center with a dental clinic, enabling care providers to double the number of patients they treat.
Organizational efforts to promote social-service innovation include The City Project, which utilizes land-use planning strategies, policy and legal research, and community organizing to address environmental disparities and to increase access to natural places for urban communities. This two-year, \$400,000 grant will support the continuation of work in Los Angeles and further expansion in California and nationwide.
The grantmakers' forum focuses on issues and program opportunities related to the conservation and restoration of biological resources. Kresge's funding for the Health and Environment Funders Network will enable the program to advance collaboration and communication among environmental-health and environmental-justice funders, elevate their interest in key issues, and attract new philanthropic resources.
Covenant clinics provide low-cost primary health, mental-health, and dental care to southwest Detroit, a multicultural, low-income community. Grant monies will assist with the renovation of a historic building for use as a community health center, which will immediately increase access to comprehensive healthcare for residents and have a positive economic impact on the area.
The nonprofit serves a 70-mile-long peninsula, which is home to a racially diverse population, including seasonal farm workers employed in the area's agricultural operations. The replacement of the Onley Community Health Center, supported by this challenge grant, will result in a larger, more-modern facility offering better access to affordable healthcare for vulnerable patients.
The center is a leading advocate for improving children's environmental health. This two-year, \$500,000 grant will enable the organization to expand its work to the issue of food access by promoting locally, sustainably grown food to Detroit hospitals, and also to launch a consumer-products Web site that provides information about toxic chemicals in everyday products.
CentroMed serves as a safety-net provider, delivering comprehensive, affordable primary healthcare services at 19 sites to low-income and uninsured working families in Bexar County and south Texas. This challenge grant will be used to construct a new Health and Wellness Center that will accommodate 24,000 additional patients and provide employment opportunities.

Community Foundation for Southeast Michigan Detroit, Michigan \$500,000
Community Health Care Tacoma, Washington \$550,000
Community Partners, The City Project (2008 grant) Los Angeles, California \$200,000
Consultative Group on Biological Diversity San Francisco, California \$30,000
Covenant Community Care Inc. Detroit, Michigan \$250,000
Eastern Shore Rural Health System Inc. Nassawadox, Virginia \$175,000
The Ecology Center Inc. (2008 grant) Ann Arbor, Michigan \$250,000
El Centro del Barrio dba CentroMed San Antonio, Texas \$400,000

Fund for Public Health in New York Inc.

New York, New York
\$150,000

The city's health department established the fund to develop and manage programs that improve residents' health and well-being and create a healthier environment. This two-year, \$225,000 grant will support the implementation of "Active Design Guidelines," a template for promoting structural designs that foster healthy living and support environmentally sound construction.

The George Washington University

Washington, D.C.
\$400,000

The university is home to the National Health Policy Forum, a nonpartisan organization that offers federal health policymakers high-level, unbiased information and analysis on key health-policy issues. Kresge's two-year, \$900,000 grant will advance the forum's programming in the areas of health-insurance expansions and market reform, public health and safety-net institutions, and determinants of health and well-being.

Grantmakers In Health

Washington, D.C.
\$10,000

The nonprofit educational organization serves as a resource center for grantmakers and others seeking expertise and information on the field of health philanthropy. This grant award will fund Kresge's annual membership in Grantmakers and help support the organization's efforts to strengthen the grantmaking community's knowledge, skills, and effectiveness.

Grantmakers In Health

Washington, D.C.
\$15,000

The nonprofit educational organization serves as a resource center for grantmakers and others seeking expertise and information on the field of health philanthropy. Grant monies will be used to create a "Mission Investing Guide," which will function as a primer for health-focused foundations that are new to the field of mission-related investments.

Greensboro Housing Coalition

(2008 grant)

Greensboro, North Carolina
\$90,000

The housing-advocacy organization has launched the Healthy Homes Greensboro initiative to help the community restore housing to healthy conditions, thereby improving health, preserving housing, conserving water and energy, and providing a thriving environment. This two-year, \$180,000 grant will support training, coordination, expansion of resources for repairs and education, and evaluation of outcomes.

Health Care Without Harm

(2008 grant)

Jamaica Plain, Massachusetts
\$200,000

The environmental health-care coalition, comprising 450 organizations in 52 countries, has developed the Green Guide for Health Care, the industry's first best-practices, green-building tool. This three-year, \$600,000 grant will support a multifaceted campaign to foster green building in facilities construction and renovation, and to promote green practices and products in health-care settings.

HealthNet Inc.

Indianapolis, Indiana
\$250,000

Through its network of community-based health centers and school clinics, HealthNet provides affordable healthcare to more than 42,000 underserved residents, including many low-income, uninsured, and underinsured families. This challenge grant will be used for the renovation and expansion of the Southwest Health Center, providing patients with a more comprehensive neighborhood care facility.

Health Resources in Action

Boston, Massachusetts
\$250,000

The nonprofit public-health organization's Asthma Regional Council, a coalition of 75 New England government, community, academic, and health groups, is addressing environmental contributors to pediatric and adult asthma. Kresge's two-year, \$500,000 grant for the council's Healthy Homes Promotion Project will complete the development of a business case for healthy homes reimbursement for health insurers, and also to implement a region-wide healthy homes demonstration.

The healthcare provider offers a wide spectrum of medical services to individuals in Metro Detroit and serves as a center for education and medical research. Challenge-grant funding will support several capital improvement projects at the Main Hospital, including the expansion of SMART rooms, the build-out of new surgical suites, and the upgrading and renovation of specialty centers.

Since 1982, the free clinic has provided life-giving services to meet the health and social needs of low-income, uninsured residents of Washtenaw and Western Wayne counties and surrounding areas. The construction of a new clinic, with challenge-grant assistance, will consolidate existing programs into one location, revitalize the local neighborhood, and improve healthcare access for marginalized groups.

Headquartered in Oakland's inner city, the federally qualified community health center provides primary medical, dental, and other health-care services and education to low-income and minority residents, and serves outlying areas through 10 satellite and school-based clinics as well as three licensed pharmacies. This funding represents the final payment of a multi-year strategic-development planning grant and a challenge grant totaling \$1,140,000.

As a leading social-change institution, the foundation has addressed poverty, youth violence, education reform, and environmental justice while coordinating efforts to impact public policy. This two-year, \$325,000 grant will support its Common Agenda project, a combination of two environmental-health initiatives, and fund the research and development of a new facility site plan.

LiveWell Colorado is a statewide public-private initiative that coordinates obesity-prevention programs in communities and schools, with the goal of increasing the number of people who lead active lives and have healthy diets. This \$1,000,000 grant over three years will help to build, evaluate, and scale up the community-based anti-obesity programming.

The alliance uses research, organizing, coalition-building, policy advocacy, and communications to achieve its mission of transforming the economy and the environment. Kresge's three-year, \$300,000 grant will support the implementation of a Clean Trucks Program at the Port of Long Beach to address port-traffic issues, alleviate air pollution, and improve residents' health.

The public health intermediary has been engaged in plans to redevelop New Orleans' devastated communities in ways that address not only the primary-care system, but also the environmental and social determinants of health. Grant funding for the Orleans Neighborhood Health Implementation Plan will assist residents in building a sustainable community of healthy neighborhoods.

A recognized national leader in developing urban food markets, the social enterprise operates three farmers' markets and several traveling market road shows that connect food producers with consumers. This grant will provide working capital for the organization, which is transitioning to an independent nonprofit status following 12 years as a project of Loyola University.

Henry Ford Health System

Detroit, Michigan
\$2,500,000

Hope Medical Clinic Inc.

Ypsilanti, Michigan
\$400,000

La Clínica de la Raza

Oakland, California
\$125,000

Liberty Hill Foundation

(2008 grant)
Santa Monica, California
\$125,000

LiveWell Colorado

(2008 grant)
Denver, Colorado
\$350,000

Los Angeles Alliance for a New Economy

Los Angeles, California
\$100,000

Louisiana Public Health Institute

New Orleans, Louisiana
\$250,000

Market Umbrella

New Orleans, Louisiana
\$250,000

Media & Policy Center Foundation (2008 grant) Santa Monica, California \$250,000	The nonprofit media and marketing company is developing a two-hour PBS documentary and national outreach initiative, entitled “Balancing Public Space and Public Health,” to explore how communities are redesigning their built environments in health-conscious ways. This two-year, \$500,000 grant will fund research and development, planning, and production-related costs for the documentary.
Michigan Legal Services Detroit, Michigan \$50,000	The nonprofit legal-services organization is the fiscal sponsor for the Michigan Universal Health Care Access Network, which builds, strengthens, and connects healthcare-advocacy networks seeking to attain affordable, comprehensive healthcare for all Michigan residents. Kresge’s two-year, \$100,000 grant will advance the development of a strategic business plan for expanding and mobilizing the network’s support base.
Michigan Primary Care Association Lansing, Michigan \$200,000	The association offers advocacy, training, education, and recruitment services to 32 community health centers and other community-based providers. Grant monies will go to develop and implement a comprehensive capital-development plan that assesses the capital needs of member centers supporting the Access for All Michigan Plan, a system-wide strategy to improve healthcare access.
Michigan Public Health Institute (2008 grant) Okemos, Michigan \$525,000	The institute has been selected to manage Kresge’s comprehensive, collaborative initiative to eliminate or significantly reduce the incidence of lead poisoning in three target communities across the U.S. This three-year, \$1,375,000 grant will provide project support and assistance for the Getting-The-Lead-Out initiative as well as additional consultation on community-health initiatives.
National Center for Healthy Housing Inc. Columbia, Maryland \$143,000	The nonprofit corporation fosters healthy, safe homes for children by engaging in research, reporting, training, and policymaking on housing-related health issues. Grant monies will help to create a National Healthy Housing Coalition and refine a National Healthy Housing Action Plan, promoting collaboration, systematic policy changes, and funding for healthy housing.
Occidental College, Center for Food & Justice (2008 grant) Los Angeles, California \$205,000	With its mission to promote access to healthy food in underserved areas, the center has been instrumental in spearheading training, technical assistance, and research efforts to engage farmers with residents of low-income neighborhoods. This two-year, \$395,000 grant will support the Preschool Food Project, an initiative to raise preschoolers’ awareness and consumption of farm-fresh produce.
Occidental College – Urban & Environmental Policy Institute Los Angeles, California \$163,306	Based at Occidental College, the institute encompasses multiple centers and programs focused on social-change issues involving food, housing, pollution, and migration policy. With funding assistance, the institute will identify, analyze, and evaluate the health, environmental, and community impacts of ports and the movement of goods and make recommendations for intervention.
Pesticide Action Network North America Regional San Francisco, California \$175,000	The network anchors Californians for Pesticide Reform, a statewide coalition of 185 organizations dedicated to fostering state and local pesticide policies and practices that protect public health and reduce environmental toxins. Kresge’s two-year, \$340,000 grant will bolster the coalition’s two major campaigns, and advance its internal capacity-building and strategic-planning efforts.

As the nation’s leading sexual and reproductive healthcare advocate and provider, Planned Parenthood supports 99 affiliates that operate 880 health centers serving five million individuals annually. With this two-year, \$440,000 grant, the organization will implement the clinician/patient education segment of its new Environmental Health Education Project focused on reducing exposure to toxins.
Low-income and uninsured clients in rural areas receive comprehensive reproductive health services at 27 healthcare centers operated by Northern New England’s largest Planned Parenthood affiliate. Kresge’s three-year, \$300,000 grant will assist efforts to reduce patients’ exposure to contaminants in the health centers and to create a toolkit to guide other providers in detoxifying facilities.
The national research, communications, capacity-building, and advocacy-support organization is working to change land-use planning, urban design, and urban food systems in ways that improve the health of low-income and minority communities. This three-year, \$2,000,000 grant will support the national expansion of closely linked initiatives to address inequities in the built environment and food systems.
Located in a rural, agricultural area, the hospital offers comprehensive on-site medical services to indigent residents and provides community outreach through a rural health clinic, educational and counseling programs, and free screenings. This challenge grant will help fund the renovation and expansion of the emergency department and patient-registration area.
The conservancy has helped communities develop more than 15,000 miles of open trails nationwide, affording urban dwellers greater access to green space and improved personal health. This three-year, \$975,000 grant will support a three-year effort to build urban trails in six major cities and to establish a National Learning Network for information sharing.
RiverStone Health is the public health entity for Yellowstone County and operates more than 28 programs that meet the healthcare demands and challenges of community residents, including many who are indigent and uninsured. Challenge-grant monies will go toward the construction of a new RiverStone Hospice inpatient home that will provide vulnerable patients and their families with specialized, high-quality, end-of-life care and counseling.
The organization operates two houses that offer free temporary residence for needy families with children receiving medical treatment at nearby hospitals. Assisted by this challenge grant, Ronald McDonald will construct a larger LEED-rated house to replace an aging, water-damaged facility, ensuring there is adequate room to accommodate additional families.
The foundation’s Bay Area Environmental Health Collaborative is a partnership of environmental health and justice coalitions and other organizations working to reduce disproportionate air-pollution impacts on low-income and minority Bay-area populations. Kresge’s three-year, \$450,000 grant will enable the coalition to develop recommendations for pollution regulations and strengthen public participation in decision-making processes.

Planned Parenthood Federation of America Inc. New York, New York \$220,000
Planned Parenthood of Northern New England Williston, Vermont \$100,000
PolicyLink (2008 grant) Oakland, California \$900,000
Prosser Memorial Hospital Prosser, Washington \$550,000
Rails-to-Trails Conservancy (2008 grant) Washington, D.C. \$325,000
RiverStone Health Foundation Billings, Montana \$250,000
Ronald McDonald House Charities of Greater Washington, D.C. Washington, D.C. \$300,000
Rose Foundation San Francisco, California \$150,000

St. Vincent's Medical Center Bridgeport, Connecticut \$1,000,000	St. Vincent's is a major medical-services provider for Bridgeport's uninsured and underinsured residents, and has been proactive in promoting access to care and preventive health strategies in the community. Challenge-grant monies will go toward the expansion of the Bridgeport hospital, including a new cancer center and emergency department.
South of Market Health Center San Francisco, California \$250,000	As a safety-net provider, the center offers primary care, disease prevention, health promotion, advocacy, and education for the city's most vulnerable residents, including homeless and transient individuals. The construction of a LEED-rated state-of-the-art health center and low-income family housing complex, supported by challenge-grant funding, will expand its capacity and services.
Sports Outdoor and Recreation – SOAR San Antonio, Texas \$400,000	Sports Outdoor and Recreation was established as a nonprofit organization by the Gordon Hartman Family Foundation to oversee Morgan's Wonderland, a proposed \$22 million, 25-acre ultra-accessible family-fun park for children and adults with disabilities. Kresge's challenge grant will go toward completion of the park, which admits special-needs visitors at no charge.
The Trust for Public Land (2008 grant) New York, New York \$1,000,000	The trust launched its Parks for People Initiative to ensure every American home has access to a park. This two-year, \$2,000,000 grant will provide recreation for 34,000 Newark residents through the construction of a community playground and expansion of two existing facilities, development of two city parks, and creation of new waterfront parkland.
United Neighborhood Health Services Inc. (2007 grant) Nashville, Tennessee \$100,000	United's neighborhood clinics, school-based programs and mobile unit deliver medical and wellness care, education and counseling, and additional outreach services, often in collaboration with other partners, to low-income and minority patients, the homeless, and at-risk youth. This \$100,000 bonus grant recognizes the attainment of key benchmarks associated with a two-year, \$250,000 capital-challenge grant for construction of a replacement clinic.
University of California-San Francisco San Francisco, California \$245,000	The university anchors the Program for Reproductive Health and the Environment, which conducts research and leverages scientific findings to advance clinical care and health policies that prevent exposure to harmful chemicals and create a healthier environment. This three-year, \$740,000 grant will support an innovative Reach the Decision Makers science and policy training program.
University of Michigan School of Natural Resources and Environment (2008 grant) Ann Arbor, Michigan \$155,000	The school seeks to protect the earth's resources and to achieve a sustainable society through research, teaching, and outreach. This three-year, \$485,000 grant will fund a study of Environmental Protection Agency data and Michigan schools to identify sites with high air-toxics exposure, inform stakeholders, and develop better standards for the future placement of schools.
University of Southern California Los Angeles, California \$350,000	Housed at the university's Keck School of Medicine, the Southern California Environmental Health Sciences Center spearheads research on traffic-related health impacts. Kresge's three-year, \$950,000 grant will help fund the Trade, Health, and Environment Impact Project, a collaborative initiative to address the pollution effects of ports and goods movement on disadvantaged communities.

The center has created a Lead Housing Database that links houses in Detroit and Wayne County to multiple cases of lead-poisoned children. Grant monies will fund further expansion and development of this interactive database, which will coordinate interagency efforts to eliminate childhood lead poisoning in Detroit.

The environmental-justice organization educates and mobilizes minority residents on issues impacting their quality of life and influences policy making to protect the environmental health of vulnerable populations. This two-year, \$500,000 grant for operations will enable WE ACT to enhance key programs related to reducing toxic hazards and promoting healthy, safe communities.

The foundation works to improve health outcomes for vulnerable populations by increasing access to fresh, locally grown food and bolstering revenues for family farmers on a national level. This three-year, \$525,000 grant will support organizational infrastructure and nutrition-incentive programs for new and existing projects.

The Healthy Schools Program, a collaborative project of the foundation's Alliance for a Healthier Generation, was launched across the nation's most impoverished, minority-populated schools to address the childhood-obesity epidemic. This \$500,000 grant over three years will implement the exercise and healthy-eating program at public and parochial schools in New Orleans.

The organization is a leading advocate for community-based solutions to alleviate hunger and poverty, and operates a variety of national programs to increase the availability of affordable healthy food. This grant will fund the first-year planning phase of Eliminating Food Deserts, a project to increase access to and affordability of healthy foods in the Mississippi Delta and southwest Arizona.

Health Clinic Opportunity Fund

The Health Clinic Opportunity Fund is designed to bridge, build, and sustain the operations of high-performing community health centers serving diverse and vulnerable populations. It targeted free clinics, public health clinics and designated federally-qualified health center look-alikes to meet both the immediate and long-term health needs of their constituents. Priority was given to projects that leverage existing resources, create more effective operating systems, improve efficiencies, and expand and maintain access to health services for vulnerable populations.

The voluntary free clinic delivers healthcare services primarily to the Native American population in Los Angeles and Orange counties, and offers a medical home to more than 1,500 uninsured patients. Grant support will help the center strengthen the level of primary care, respond to increased demand for healthcare services, and build more sustainable resources.

The center is the only medical-care provider for a majority of the disadvantaged residents living in Anderson Valley, an isolated agricultural area in Northern California. Faced with federal and state cutbacks, the center will use Kresge's two-year, \$300,000 grant as bridge funding to keep its medical services operational until additional funding streams can be developed.

American Indian Healing Center
Whittier, California
\$166,000

Anderson Valley Health Center Inc.
Boonville, California
\$150,000

**Asian American Health Coalition
of the Greater Houston Area**

Houston, Texas
\$150,000

Culturally and linguistically competent health services are offered by the center to low-income, underserved Asians and other diverse populations living in southwest Houston, home to the nation’s fourth-largest Asian community. This two-year, \$300,000 grant will support the expansion of primary-care services to meet the rapidly growing demand for healthcare.

Baker County Health Department

MacClenny, Florida
\$150,000

The department has seen a 30 percent increase in clients who lack insurance or the ability to pay for its primary-care and family-support services. Kresge’s two-year, \$300,000 grant will be used to expand the dental program and increase the days services are available, providing greater access to pediatric care for children.

Bread for the City Inc.

Washington, D.C.
\$150,000

The free clinic provides vulnerable residents with comprehensive services, including food, clothing, medical care, and legal and social counseling. Strained by a 50 percent increase in patient visits in 2009, the clinic will use this two-year, \$300,000 grant to maintain its level of services, improve patient care, and advance professional staff development.

Caridad Center Inc.

Boynton Beach, Florida
\$100,000

Serving as the largest safety-net provider in Palm Beach County, Caridad’s Health Clinic offers medical, dental, educational-enrichment, and community-outreach services to an ethnically and economically diverse population of uninsured and working-poor families. Kresge’s two-year, \$200,000 grant will support the clinic’s operating expenses and help it meet the increased demand for services.

Coastal Medical Access Project

Brunswick, Georgia
\$145,000

The free clinic acts as the only safety-net organization delivering primary care to 24,000 uninsured residents in a three-county region in coastal Georgia. This two-year, \$290,000 grant will support operating expenses, enabling the clinic to accommodate additional new patient visits and expand its services to meet increased demand.

**Columbus Medical Association
Physicians Free Clinic**

Columbus, Ohio
\$100,000

The association’s affiliated Physicians Free Clinic/Voluntary Care Network has coordinated access to primary and specialty care for more than 30,000 patients since its inception in 1993, but it now faces increasing demand. Kresge’s funding will enable the free clinic to continue to provide uninsured residents with competent care and affordable prescription drugs.

**Community Health-In-
Partnership Services**

St. Louis, Missouri
\$150,000

The voluntary free clinic is the only one serving metro St. Louis, where it has been providing healthcare to uninsured residents for 20 years. This two-year, \$300,000 grant will support the clinic’s operating expenses and help it meet the increased needs of a patient load that has doubled since 2007.

**Davidson Medical Ministries
Clinic Inc.**

Lexington, North Carolina
\$150,000

Uninsured and underinsured residents and patients with chronic health conditions receive medical and dental care along with pharmaceutical services at the only safety-net provider in rural Davidson County. Kresge’s two-year, \$300,000 grant will enable the clinic to maintain its current services and level of operations while accommodating additional clients who seek care.

**The Free Medical Clinic of
Greater Cleveland**

Cleveland, Ohio
\$150,000

The state’s largest free clinic has seen a steady increase in demand for its comprehensive medical, dental, and community-education services by the working poor. Kresge’s two-year, \$300,000 grant will fund new initiatives to expand the clinic’s reach, support the demands of current and new clients, and shore up programmatic and medical partnerships.

Since 1982, the free clinic has provided life-giving services to meet the health and social needs of low-income, uninsured residents of Washtenaw and Western Wayne counties and surrounding areas. The clinic will be able to accommodate the growing demand for its services by needy populations with additional operating support provided by this two-year, \$300,000 grant.

Low-income, homeless, and underserved adults and children of south Orange County receive free medical, dental, and health-education services from the clinic. Faced with increasing numbers of patients who need assistance, the clinic will use this two-year, \$196,000 grant to hire additional staff members.

The private nonprofit clinic fills a significant healthcare gap on Detroit’s east side by offering free primary-care and social services to uninsured, homeless, and other vulnerable populations. This two-year, \$300,000 grant will increase the clinic’s capability to treat additional patients and help leverage access to free specialty and ancillary care services.

Mobile Medical Care’s network of clinic sites and mobile medical units offers free or discounted quality healthcare to low-income, working-poor, and homeless individuals in the middle and lower region of Montgomery County. This two-year, \$220,000 grant will support operations for a new up-county clinic at Shady Grove Adventist Germantown Emergency Center.

The free clinic exclusively serves uninsured patients who seek primary and mental-health care and free prescriptions at its ambulatory-care facility, and operates a Physicians Network to treat other residents throughout the state. Kresge’s two-year, \$300,000 grant for staff support will enable the clinic to expand its hours and recruit volunteer physicians.

Uninsured and low-wage service and agricultural workers receive a wide spectrum of medical, dental, mental-health, and disease-management care at the organization’s clinics and program centers in Santa Barbara County. Kresge’s two-year, \$300,000 grant will support operating expenses to help meet the increased demand for services.

The center plays a vital safety-net role by delivering comprehensive primary care, chronic care, behavioral health, and complementary medical services for women and children, including many chronically ill, homeless, and uninsured patients. Faced with increasing demand for services, the clinic will use Kresge’s two-year, \$275,000 grant to cover mounting operating expenses.

The organization operates the Catherine McAuley Clinic, which delivers medical treatment, health care, wellness education, and dental assistance to a burgeoning patient population in a medically underserved area. Grant funding will allow the clinic to expand its operating hours and add a full-time nurse practitioner to accommodate increased volume and community outreach.

The free clinic staffed by retired care providers, including physicians, nurses, dentists, social workers, and lay persons, is the only medical and dental facility that offers no-charge services to underserved patients, including many minorities. Funding will go toward training medical professionals to use a recently installed electronic medical records system.

Health Program: Program-related Investments

Program-related investments (PRIs) give nonprofit organizations, including nonprofit banks or community development financial institutions access to financial capital in the form of low-interest and no-interest loans.

Capital Link Inc.
(2008 grant)
Boston, Massachusetts
\$1,410,000

The organization assists community health centers and primary-care associations in accessing capital for building and equipment purchases, and provides technical assistance throughout the entire capital-development process. This \$2,250,000 program-related investment over seven years will go toward the construction, rebuilding, and expansion of health-care centers in hurricane-ravaged areas of Louisiana. A \$250,000 grant will cover project and loan expenses.
