

THE KRESGE FOUNDATION

Reader's Guide to the Form 990-PF

A private foundation must make its annual Form 990-PF available for public inspection. The Kresge Foundation (hereinafter, the "Foundation") posts this form for download on the Web site, www.kresge.org. The Form provides information about the Foundation's financial and charitable activities for the year as well as assesses any taxes owed by the Foundation to the IRS.

The tax return form and rules can be complex, so we hope that this Reader's Guide will aid you in gaining a better understanding of our form. We have provided answers to some frequently asked questions as well as a table of key data points and their relevance by topic related to the return.

Frequently Asked Questions

Payout

How much was Kresge required to distribute in 2017?

The Foundation was *required* to distribute \$183,005,937 as shown on Page 8, Part XI, line 7. The term the IRS uses for the minimum 5 percent payout is the distributable amount. The *actual* amount of adjusted qualifying distributions for the Foundation in 2017 was \$195,133,333 as shown on Page 8, Part XII, line 6.

How is the required payout calculated?

The IRS rules require the Foundation to pay out 5 percent of its average non-charitable use assets, which is equivalent to the investment assets and any other assets that are not used directly in the charitable work of the Foundation, adjusted for income tax and recoveries of amounts previously treated as qualifying distributions. This calculation is summarized on Page 8 in Parts X and XI of the return.

What types of disbursements count toward Kresge's annual payout requirement?

Grants paid, program-related investments, exempt operating costs (those that further the charitable purpose of the Foundation), and amounts paid to acquire assets used directly in carrying out charitable purpose, all count toward payout.

Administrative and Other Costs

What were Kresge's 2017 exempt expenses as a percentage of qualifying distributions and as a percentage of average assets?

Total exempt expenses as a percentage of qualifying distributions was 12.53 percent (calculated as \$24,753,765 Page 1, Part I, line 24, column (d) divided by \$197,553,719 Page 8, Part XII, line 4). Survey results of peer foundations with greater than \$1 billion in average assets reveal exempt expenses as a percentage of grant payout of 16.48 percent for 2017.

Frequently Asked Questions (Continued)

Total exempt expenses as a percentage of average assets was 0.68 percent (calculated as \$24,753,765 Page 1, Part I, line 24, column (d) divided by \$3,631,511,420 Page 8, Part X, line 5). Survey results of peer foundations with greater than \$1 billion in average assets reveal exempt expenses as a percentage of average assets of 0.90 percent for 2017.

Taxes and Other

What kind of taxes does Kresge pay?

The Foundation is exempt from income taxes under IRS rules. However, the Foundation is required to pay a 2 percent excise tax on net investment income, which can be reduced to 1 percent if certain spending criteria are met (discussed below). Net investment income includes interest, dividends, net realized capital gains, and other investment income, minus expenses for managing investments. The net investment income figure used in this calculation is shown on Page 1, Part I, line 27b, column (b). The 2017 net investment income was \$242,038,629. In 2017, a 1 percent excise tax rate resulted in tax of \$2,420,386 as shown on Page 4, Part VI, line 5 of the 990-PF.

The Foundation is also subject to unrelated business income tax under IRS rules due to the nature of income derived from some of the investment vehicles held in the investment portfolio. This tax is calculated using the tiered corporate tax rate schedule.

Why do some foundations pay 1 percent in excise taxes, and other pay 2 percent?

A foundation may reduce its excise tax rate from 2 percent to 1 percent if it disburses an amount above its required minimum distribution amount. In 2017, the Foundation needed to distribute \$185,539,349 (Page 3, Part V, line 7) to qualify for the lower rate and it distributed \$197,553,719 (Page 3, Part V, line 8).

The Kresge Foundation 2017 990-PF Key Data Points

| Topic | Line Reference | Dollar Value/Percent | Comments |
|---------------------------------------|--|----------------------|---|
| Administrative and other costs | Page 1, Part I, line 24, column (d) and Page 8, Part XII, line 2 | \$24.77M | Consists of direct grant-making expenses including salaries and operating costs of the staff who make and manage the grants, direct charitable expenses such as consulting and convening costs paid to support the work of our grantees, administrative costs to operate the Foundation, including salaries and benefits for support functions such as finance and human resources, professional fees, office expenses, assets acquired, etc. Represents the costs allocated toward charitable purposes that are included in the Foundation's qualifying distributions in Part XII. |
| Grants paid | Page 1, Part I, line 25, column (d) | \$147.80M | Represents grants approved and paid in 2017. The Foundation also made \$24.99M of PRI's in 2017 for a grand total in giving of \$172.79M. |
| Minimum distribution ratio | Page 3, Part V, line 3 | 5.04% | Represents the distribution ratio used in determining the required distribution for the Foundation to qualify for the 1 percent excise tax; this ratio is based on the average distribution ratios from the 5 previous years. |
| Reduced tax rate minimum distribution | Page 3, Part V, line 7 | \$185.54M | The amount of distributions required by the Foundation to qualify for the 1 percent excise tax. |

| Topic | Line Reference | Dollar Value/Percent | Comments |
|--|---|-----------------------------|--|
| Tax based on investment income | Page 4, Part VI, line 5 | \$2.42M | The Foundation had a net gain position for 2017. The Foundation's excise taxes, calculated as 1 percent of its net investment income as shown on Page 1, Part I, line 27b, column (b). |
| Compensation of officers, directors, and trustees | Page 6, Part VIII, line 1(c) | \$3.10M | The attached statement (number 20 in the return) provides a listing of 2017 compensation and benefits paid to the Foundation's Officers and Board Trustees. |
| Compensation of five highest paid employees (other than officers, directors, and trustees) | Page 6, Part VIII, line 2(c) | \$2.70M | Although the return doesn't display this total, the Foundation provides a listing of the 2017 compensation and benefits paid by person for the highest paid employees. |
| Summary of program-related investments | Page 7, Part IX-B, Total | \$24.99M | Describes the below market rate loans made to organizations. |
| Minimum investment return | Page 8, Part X, line 6 | \$181.58M | The minimum investment return is generally 5 percent of the total fair market value of the Foundation's non-charitable use assets. |
| Distributable amount | Page 8, Part XI, line 7 | \$183.01M | Represents the minimum amount the Foundation must distribute by the end of 2017 as qualifying distributions. |
| Adjusted qualifying distributions | Page 8, Part XII, line 6 | \$195.13M | The amount the Foundation actually spent for charitable purposes for the year. |
| Actual distribution ratio | Page 8, part XII, line 6 divided by Page 8 Part X, line 5 | 5.37% | Although the return doesn't display this ratio, it can be calculated for the 2017 year. The required minimum distribution ratio is 5.0 percent. |
| Cumulative excess distributions | Page 9, Part XIII, line 9(a) | \$25.74M | The amount of excess distributions that the Foundation may carryover and apply toward following years. |
