

THE KRESGE FOUNDATION

Detroit PROGRAM

We collaborate with cross-sectoral partners to promote and expand long-term, equitable opportunity in Kresge's hometown by centering the priorities of its residents.

We place our highest priority on neighborhood-based, resident-led organizations, seeking to join with them in strategies for tomorrow's transformations. It is imperative that the city's resurgence be broadly inclusive of neighborhoods and their residents, the city's heart and soul.

We do so by investing our resources in these areas:

Early Childhood Development/Hope Starts Here

We are reimagining the city's neighborhoods by putting essential building blocks in place that will support the healthy development of young children. We do this in alignment with Hope Starts Here (HSH), an initiative launched in partnership with the W.K. Kellogg Foundation, focused on helping create a Detroit where children are born healthy, well-prepared for kindergarten, and on track for success by third grade and beyond.

Nonprofit Capacity Building and Leadership Development

We aim to build a more inclusive Detroit by elevating talented leaders outside traditional power structures and providing residents and nonprofit leaders of color opportunities and resources to shape their city.

Equitable Community Development

We support activities and investments for transformative changes that improve the conditions and prospects of Detroiters. We particularly seek to bolster – through project grants, operating support and social investing –

a range of community development organizations that authentically engage community on neighborhood-level change, as well as the community development systems and intermediaries that support them.

Coordinated Investments and Technical Assistance

Our Detroit Program works to provide coordinated investments (such as grants and social investments) to neighborhood stewards that implement catalytic projects across Detroit neighborhoods. Stewards connect these layered resources to amplify the strengths and enhance the unique character of the community. Today, we seek to extend and adapt these lessons in Livernois-McNichols (Live6), Southwest Detroit, New Center and the North End, and Jefferson Chalmers.

Arts and Culture Ecosystem

We support metro Detroit arts and culture at multiple levels, including operating support to organizations of various sizes, support for neighborhood-based Creative Placemaking efforts and projects in the city of Detroit, as well as unrestricted financial support for individual creators. We actively promote the power of arts and culture to preserve and enhance identity, connectedness and opportunity.

Transformative Project/Marygrove Cradle-to-Career Campus

The creation of a cradle-to-career P-20 educational continuum on the Marygrove Conservancy campus in Northwest Detroit puts quality education at the center of the surrounding neighborhood's revitalization. With a \$75 million Kresge commitment, and entailing an array of partners, the campus is anticipated to serve more than 1,000 students at full capacity.

KEY PROGRAM INITIATIVES

Kresge Innovative Projects: Detroit Plus

**Kresge
Innovative
Projects:
Detroit +**

Through this evolving initiative we support transformative projects to tap the vision and

creativity of residents to improve quality of life in their neighborhoods in Detroit — and as of 2021 — Highland Park and Hamtramck. Since its launch in 2014 as Kresge Innovative Projects: Detroit, 78 nonprofits have received 127 grants totaling more than \$11 million, complemented by \$1.5 million in technical support. KIP:D+ is now a partnership among Kresge, Michigan Community Resources and Co.act Detroit.

Live6 Alliance

The Live6 Alliance is the community steward for the Livernois-McNichols neighborhood, which encompasses higher-education anchors, reviving

commercial areas and a range of neighborhoods. Working from Neighborhood HomeBase — a renovated networking space for residents, neighborhood groups, nonprofits and city government — the Live6 Alliance works toward revitalization that honors the area's history.

Kresge Arts in Detroit

We believe that arts and culture are integral to community revitalization.

Through the Kresge Arts in Detroit initiative — administered on Kresge's behalf

by the Kresge Arts in Detroit office of the College for Creative Studies — we annually recognize Kresge Eminent Artists, Kresge Artist Fellows and Gilda Awardees. The first award was made in 2008. By June of 2022, the awards will total \$7.4 million for 300 recipients.

COMMITMENT TO RACIAL EQUITY

Challenges in Detroit are not only about current issues. They stem, as in all parts of the United States, from a deep and complex legacy of structural racism and bias. This legacy manifests itself in how our society has invested — and disinvested — in communities. For all Detroiters to thrive, we must address the root

causes of the city's challenges. This view leads the Detroit Program team to embrace these principles in approaching our community: listening first to learn; being humble, respectful and inclusive; challenging power narratives, our own included; and acting with intention.
